Objective

Bachelor of Technology student in Computer Science (AI/ML specialization) with a strong interest in Artificial Intelligence and Software Development. Seeking an internship opportunity in Software Development, with a focus on Frontend Development and AI-driven applications.

Skills

Technical Skills:

- Programming: JavaScript, Python
- Web: HTML, CSS, JavaScript, ReactJS, NodeJS, Tailwind CSS
- Tools: Git, GitHub, VS Code

Other Skills:

- Communication
- Teamwork
- Curiosity-driven problem solving
- Typing Speed 100+ WPM

Projects

Edituer – Python | GitHub: https://github.com/lucky-KRMU/Edituer
Basic image editing software built using Python. Implements filters, image resizing, and simple editing operations using OpenCV, with a Tkinter-based graphical interface.
Flug – ReactJS | Live Demo: https://lucky-krmu.github.io/Flug/
Flight tracking application that fetches real-time flight data using API integration. Includes search functionality for airports, airlines, aircraft, cities, and countries.
KhushiSRT *v1.0* - Python, Flask, ReactJS | GitHub: https://github.com/lucky-KRMU/khushi-SRT-V1.0
AI chatbot using pretrained GPT-2 model. Backend built with Flask running Python model, with ReactJS frontend for interactive UI.

Education

B.Tech in Computer Science (AI/ML Specialization)
K. R. Mangalam University, Sohna, Gurugram | 2025-2029
Senior Secondary (Class XII)
Delhi Public School (DPS) Greater Faridabad, Haryana | CBSE | Completed 2025

Achievements

- Awarded 100% Scholarship at K. R. Mangalam University

Languages

- English (Fluent), Hindi (Native), French (Intermediate), German (Basic)
